

**Question for written answer E-003943/2015
to the Commission**

Rule 130

Gabriel Mato (PPE) and Carlos Iturgaiz (PPE)

Subject: Reduction in pedestrian deaths on Europe's roads

Of almost 30 000 victims who die each year on Europe's roads, 21% are pedestrians, with most of the deaths occurring in urban surroundings.

There is therefore a need to adopt measures at European Union level to improve the safety of the most vulnerable road users.

What actions is the Commission taking to improve road safety training and prevention in the EU?

What specific measures does it propose for reducing pedestrian deaths?
