Subject: Aid for the construction of a new primary and secondary school on the island of Porto Santo

During a recent visit to the island of Porto Santo, I was able to confirm that the Professor Dr Francisco de Freitas Branco Primary and Secondary School is in very poor condition, failing to provide pupils with the requisite physical environment. A large majority of the educational community is calling for the construction of an entirely new school for primary and secondary pupils on the island.

- Is there any Community funding available for the construction of new schools?
- Has any provision been made for the allocation of funding for the above-mentioned project?
