

**Question for written answer E-004213/2015
to the Commission**

Rule 130

Javier Couso Permuy (GUE/NGL)

Subject: Taking stock of liberalising trade in agricultural and fisheries products with Albania

Since the Stabilisation and Association Agreement with Albania came into force, both that country and the EU decided mutually to lift the quantitative barriers to trade in agricultural and fisheries products.

Has the Commission taken stock of the specific effect of this measure on trade between the EU and Albania?

Having examined the situation, does it take the view that any concessions need to be made or any trade preferences granted to that country in any specific area?
