Subject: VP/HR - Eurocontrol activity in NATO operations in Libya in 2011

Following the approval of a no-fly zone in Libyan airspace, sanctioned in United Nations Resolution 1973, Eurocontrol announced that all flight plans that intended to pass through Libyan airspace would be suspended by that organisation.

The North Atlantic Treaty Organisation (NATO) then declared itself to be the guarantor of that resolution and proceeded to implement it by means of a bombing campaign.

Given that the European Union is a member of Eurocontrol, does the High Representative have information on the possible participation of that organisation in these military activities?
