

**Question for written answer E-004660/2015
to the Commission**

Rule 130

Enrico Gasbarra (S&D)

Subject: Urban and social agendas

The Commission sets the EU urban agenda on the basis of certain strategic priorities for action which, if they are to be developed effectively, should take the form of a common and regularly updated conceptual framework to be understood in the broader context of the Europe 2020 goals for smart, inclusive and sustainable growth.

How does the Commission intend to make social inclusion part of the EU urban agenda, with a particular focus on high unemployment rates and the growing need for social housing?
