

Question for written answer E-004689/2015
to the Commission
Rule 130
Ivan Jakovčić (ALDE)

Subject: European funds for the Croatian business sector

In the pre-accession period, Croatia was using resources from European funds mainly for the improvement of public sector needs and adaptation to EU standards.

Only with entry into the European Union did EU funds become more available to the private economic sector.

I ask the Commission: Is there information available about how much European funding in total was awarded to subjects from the private sector of Croatia's economy in the pre-accession period and after accession to the European Union (by the end of 2014)?
