Subject: Revision of the TEN-T trans-European transport network

Given that Croatia as a new member is not fully included in the existing traffic routes of the TEN-T Trans-European Transport Network, I ask the Commission the following questions:

1. When is it planned to draft and adopt the new TEN-T Trans-European transport network?
2. Is it possible to carry out a prior partial revision or amendment to the existing TEN-T Trans-European Transport Network and what is the envisaged procedure?
