to the Commission**
Rule 130
Ivan Jakovčić (ALDE)

Subject: Safety of citizens in winter sports

Every year a large number of EU citizens practise recreational skiing and other snow sports. A large number of accidents also occur, some of which have severe consequences.

I ask the Commission: Are there measures or regulations at European level governing the compulsory use of protective devices (e.g. a helmet), which would reduce the number of injuries and tragic accidents?
