to the Commission**

Rule 130

Ivan Jakovčić (ALDE)

Subject: Status of the port of Rijeka as regards inclusion in the Baltic-Adriatic transport corridor by rail

In view of the geographic proximity of Rijeka to Koper and Trieste, which are included in the Baltic-Adriatic transport corridor, and given the importance of the port of Rijeka for transporting cargo from the Mediterranean to central Europe, I ask the Commission:

What is the status of the port of Rijeka as regards rail connection to the Baltic-Adriatic Corridor and its inclusion in this corridor as one of the nine major European transport corridors?
