

**Question for written answer E-005009/2015
to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Road transport

In the past few days we have learnt that the company Begano, based in A Coruña, has decided to dispense with the firms that provided it with transport services for decades and hire another company from outside the region of Galicia, which operates with equipment and labour registered in third countries, unless they lower their rates by 22 %.

Inasmuch as Parliament has recently discussed with the Commission how different national regulations are affecting road transport, I should like to ask the Commission to inform me as to whether it is aware of this case, what its view is on the situation, and what steps it is taking, or intends to take, to stop social dumping in this ambit.
