Subject: European funding for Zaragoza, Huesca and Teruel

Since Spain joined the EU we have benefited from EU solidarity as one of the main beneficiaries of structural and cohesion funding.

Further to my written question E-005993/2014, can the Commission provide a breakdown, by multiannual financing period, of the share of European funding that the cities of Zaragoza, Huesca and Teruel have received since Spain joined the EU in 1986?

Can the Commission also provide an estimate of the amounts of EU solidarity funding that those cities will receive over the 2014-2020 programming period?

What projects have received, and will receive, EU financing or co-financing?
