

**Question for written answer E-006008/2015
to the Commission**

Rule 130

Gabriel Mato (PPE) and Carlos Iturgaiz (PPE)

Subject: Study of the suitability of the Habitats and Birds Directives

In October 2014, the Commission commissioned a study to gather information and assess the Birds and Habitats Directives. Its aims were: to check that these directives are constantly being adapted to the needs in these fields; and to find out whether they are effective, consistent, and meet the objectives for which they were established.

Does the Commission now have the results of this study?

Is it facilitating control of suitability, by means of an updating policy appropriate to the Commission's environmental measures?
