

**Question for written answer E-006096/2015
to the Commission**

Rule 130

Francesc Gambús (PPE)

Subject: Perception of the Common Agricultural Policy in Member States

Following the end in 2013 of the last cycle of the Common Agricultural Policy (CAP) before it is reformed, I should like to know:

Does the Commission have any data on the perception of the CAP by countries and sectors?

In the Commission's estimation, what amount of the CAP 2007-2013 has reverted directly to the European agricultural sector?
