

**Question for written answer E-006117/2015
to the Commission**

Rule 130

Ivan Jakovčić (ALDE)

Subject: Completion of project implementation and reimbursement of funds spent so far due to the suspension the EU Adriatic CBC Programme 2007-2013

Because of the suspension of payments by the European Commission for the Adriatic Cross-border Cooperation Programme 2007-2013 due to the high rate of errors in the management of this programme, a large number of Croatian funding beneficiaries who are currently implementing projects have found themselves in trouble. The users have used their own funds for pre-financing and co-financing. The projects are not yet completed. It is not known whether the funds already spent will be repaid. It is not known whether future funds will be reimbursed and whether the projects will be completed.

I ask the Commission:

1. Can the existing partners in these projects continue with their activities and with further investment of funds?
2. Will the resources spent so far be reimbursed?
