Subject: VP/HR - Extension of the mandate of the International Commission against Impunity in Guatemala (CICIG)

Over the last eight years the CICIG has made a significant contribution towards reinforcing democracy and good governance in Guatemala, but there remain many unresolved issues for the CICIG to deal with and its mandate is now due to expire.

Various organisations in civil society are calling for its mandate to be extended, and the Government of the United States itself has also requested this.

1. Will the European Union call for the CICIG's mandate to be continued?
2. What measures will the EU adopt in favour of an extension of the CICIG's mandate?
