

**Question for written answer E-006330/2015**  
**to the Commission**  
Rule 130  
**Beatrix von Storch (ECR)**

Subject:     Taxation of borrowed capital and implications for financial stability

1.   What does the Commission know about the different tax rules applied by Member States to borrowed capital in the financial sector?
2.   In the Commission's view, how would ending preferential tax treatment of borrowed capital affect the stability of the financial sector?
3.   What power does the EU have to legislate on taxation of borrowed capital?
