to the Commission**
Rule 130
Ivan Jakovčić (ALDE)

Subject: The railway line between Rijeka and Zagreb

There has been talk for years about the need to build a so-called lowland railway line between Rijeka and Zagreb.

This is especially important for the transport of passengers and cargo from the port of Rijeka. Does the Commission intend to support these efforts of many years and how can it participate in the funding of the modernisation of this line?
