to the Commission**

Rule 130

José Blanco López (S&D)

Subject: TTIP and the canned tuna industry

The United States has for years applied 35 % duty on canned tuna originating from the EU, yet its exports to the EU are subject to 0 % duty.

What stance does the Commission propose to take in order to ensure equality of treatment between these markets in the context of negotiations with the TTIP and to avoid an adverse result for the European sector?
