

**Question for written answer E-006873/2015
to the Commission**
Rule 130
Enrico Gasbarra (S&D)

Subject: Revision of Europe 2020

The results of the public consultation on the Europe 2020 strategy, as per the communication from the Commission to the Parliament, identify some particular weaknesses in implementing the strategy's core objectives of growth and social cohesion, including the lack of visibility of the flagship initiatives and the difficulty in reaching the targets on employment, research and development and poverty reduction.

How does the Commission intend to take these remarks on board in the new regulatory proposal expected by the end of 2015?
