

**Question for written answer E-006885/2015
to the Commission**

Rule 130

Enrico Gasbarra (S&D)

Subject: European Endowment for Democracy

In just a few years and despite rather limited funding, the European Endowment for Democracy (EED) has made an important contribution to promoting EU democracy around the world.

How is the Commission planning to take account of this valuable contribution in the framework of the recently launched review of European Neighbourhood Policy, particularly with a view to approving steps that would make further forms of sustainable funding available for the EED?
