

Question for written answer E-006972/2015
to the Commission
Rule 130
Siôn Simon (S&D)

Subject: Galileo satellite launches

What lessons have been learned from the Galileo satellite launches in August 2014 with a view to ensuring that the remaining launches do not also go into the wrong orbit?

What was the total cost of the launches that went into the wrong orbit?

Given these costs, does the Commission still believe that Galileo will stay within budget?
