

**Question for written answer E-007589/2015
to the Commission**

Rule 130

Agustín Díaz de Mera García Consuegra (PPE)

Subject: Internal Security Strategy

The Internal Security Strategy was created in order to combat the challenges and threats faced by the European Union. The latest strategy, for the period 2011-2014, came into effect on 26 March 2010.

The security situation in Europe has changed dramatically in recent years, as so lamentably demonstrated by the abominable acts which took place in Paris on 7 January 2015.

Although on 28 April 2015 the European Commission presented the European Security Agenda, a useful document, the European Union needs to review the strategy as soon as possible.

When does the European Commission expect to present the Internal Security Strategy 2015-2019?
