Subject: Statistics on the housing situation of disabled persons

The question concerns statistics known to the Commission on the housing situation of disabled persons:

1. How many people live alone and take care of themselves; who lives with family; who lives in shared accommodation, and with how many disabled fellow residents; how many inclusive shared accommodation units are there?
2. What data is collected by the EU, Germany and Austria respectively?
3. Does the UN Convention on the Rights of People with Disabilities oblige Member States to make the necessary data available in a form accessible to disabled people?
