Subject: Question E-001354/2015 and Answer HR-E-001354/2015, addendum 3

The scope of the CAST Croatia 2009 competition which was held for 23 different profiles of the 3<sup>rd</sup> function group cannot be compared to the very specific CAST selection procedures referred to in the Commissioner's reply. Also, the statistics mentioned in the response which relates to officials is not relevant in this context which only deals with the selection process for CA (contract employees). It can therefore be concluded that the explanations and statistics offered only underscore the need for a proper evaluation of the selection process already carried out, also bearing in mind the principle of rational use of EU budgetary resources. In this connection I ask:

Is it possible to obtain a declaration from the competent Commissioner or the relevant EU institutions on the facts stated?
