

**Question for written answer E-007842/2015**  
**to the Commission**  
Rule 130  
**Emma McClarkin (ECR)**

Subject:     Geographical identification protection for non-agricultural products

Could the Commission please provide information on how many non-agricultural products in the EU have national protected geographical identification status?

How many Member States have schemes for non-agricultural products?

Could the Commission also elaborate on the impact assessment undertaken on these schemes and the conclusion of the impact assessment on how an EU-wide scheme would work and the impact it would have on trade?
