

**Question for written answer E-008332/2015
to the Commission**

Rule 130

Norbert Erdős (PPE)

Subject: Health risks arising from dried maize husk fodder (Dried Distillers' Grains with Solubles - DDGS) imported into the EU

1. Has the Commission investigated the potential loss of reputation that food manufacturers in the European Union may suffer as a result of the fact that GMOs can enter the food chain through imported DDGS produced from grain grown from GMO seed?
2. Has the Commission investigated the potential loss of reputation that food manufacturers in the European Union may suffer as a result of the fact that antibiotics can enter the food chain through imported DDGS and that this could be a serious cause for concern, inter alia as regards antimicrobial resistance?
