Subject: Migrant workers in Qatar

For some time now, we have known about the conditions under which construction workers in the State of Qatar are required to work, whether as part of the country's preparations for the football World Cup in 2022 or in other areas.

In its negotiations with representatives of the State of Qatar, does the Commission dwell on the human rights situation and, specifically, the conditions under which third-country workers are employed and required to work in the State of Qatar?

Has the Commission registered, perhaps in the course of local Schengen cooperation, requests from the missions of States whose nationals account for the majority of the above workers, seeking cooperation with Member States' missions?
