Subject: Co-operation with Member States to assess entrepreneurship education

In 2013 the Commission introduced the Entrepreneurship 2020 Action Plan with the aim of achieving sustainable economic growth and creating more jobs. The proposed action plan sets out a renewed vision and a number of actions to be taken at both EU and Member State level to support entrepreneurship in Europe.

However, the level of entrepreneurship and its nature vary widely between Member States. In this respect, what action has the Commission taken to reinforce co-operation with Member States in order to assess the introduction of entrepreneurship education in each country and to encourage the exchange of young entrepreneurs within the EU?
