

**Question for written answer E-008899/2015  
to the Commission**  
Rule 130  
**Jozo Radoš (ALDE)**

Subject: Inclusion of Croatia and Western Balkan countries in the TEN-T network

The territory of Croatia and the Western Balkans Six has mostly not been included in the TEN-T network. Therefore, the traditional transport corridors X, Vb and Vc have also not entered into the TEN-T network. The weakness of the transport network in this part of Europe aggravates not only mutual transport links of these countries but also transport links among EU Member States.

In this connection I ask the following parliamentary questions:

1. Does the Commission plan to include corridors X, Vb and Vc in the TEN-T network?
2. Does the Commission plan to use corridor X to connect the existing Mediterranean, Rhine – Danube and Orient-East-Med corridors?
