

**Question for written answer E-009047/2015
to the Commission**
Rule 130
Ivan Jakovčić (ALDE)

Subject: Reduction of carbon dioxide emissions in maritime transport

At the plenary session of the European Parliament of 28 April 2015 I spoke of the need to reduce carbon dioxide emissions in maritime transport.

I ask the Commission what steps it has taken after the clearly expressed positions of members on this important topic?
