Subject: Hungary's discriminatory actions

FIDESZ, the nationalist governing party in Hungary, led by Prime Minister Viktor Orban, publicly supported by means of an information campaign the promotion of a draft law that would close the country's south-eastern borders in order to limit the transit of illegal immigrants through Hungary. As such, is the intention of Viktor Orban's party to include in this project the borders with Romania, Serbia and Croatia?

What measures can the European Commission take regarding Hungary's discriminatory actions?
