

Question for written answer E-010645/2015
to the Commission
Rule 130
Cătălin Sorin Ivan (S&D)

Subject: Seismic risks

Many countries in the European Union are prone to earthquakes, and many urban areas could suffer tremendous losses because of the continuous increase in population and the complexity of lifeline systems.

What steps has the Commission taken, or does it intend to take, in order to help progress towards adequate prevention and towards the development of strategies to alleviate seismic risks in the European Union?
