

**Question for written answer E-010969/2015
to the Commission**

Rule 130

José Blanco López (S&D) and Sergio Gutiérrez Prieto (S&D)

Subject: Use of Structural Funds to organise the demographic change in Castilla-La Mancha

From the view of regional policy as a key instrument for dealing with demographic change to enable regions to use Structural Funds for the development of appropriate strategies in this area, and given that during the 2007-2013 programming period the Member States had planned to use around EUR 30 billion for measures of this kind:

Could the Commission please indicate the amounts that have been effectively executed for the purpose of organising the demographic change in Castilla-La Mancha, what initiatives have been developed and what the forecasts are for this area for the 2014-2020 period in the Autonomous Community of Castilla-La Mancha?
