

**Question for written answer E-011294/2015
to the Commission**
Rule 130
José Blanco López (S&D)

Subject: Privacy and intelligent cars

The car industry is experiencing a revolution with regard to the installation of communication technologies in new vehicles. More and more new cars are being delivered with all kinds of applications installed, offering drivers a range of services that have the potential to improve their safety and comfort but also open up the possibility of tracking citizens' movements by transmitting their data.

Is the Commission specifically looking into this situation? What measures is it considering to address it?
