to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Funding water treatment in Galicia's estuaries, 2014-2020

This question is a follow-up to Written Question E-007654/2014, in view of the increasing deterioration of Galicia's estuaries as a result of a lack of environmental protection measures in the face of urban and industrial expansion. Members of the public have submitted many petitions to the European Parliament on this issue.

Could the Commission provide information on the funding allocated under the ERDF and other European funds with the aim of restoring and guaranteeing the water quality in Galicia's estuaries during the current 2014-2020 financial period? What amounts were set aside for that purpose in the previous financial period?
