

**Question for written answer E-011344/2015
to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Russian data

According to press reports, as from September, any businesses that store the data of Russian citizens will have to do so on Russian soil. The AEB – Association of European Businessess – has thus requested a one-year moratorium on the entry into force of this law.

Can the Commission give its opinion on the action taken by the Russian government, provide some data on the potential impact on European businesses of the action taken by Russia and say whether it is considering any similar measures at EU level?
