Subject: Action to guarantee the protection of minors in the audiovisual environment

The digital single market is one of the most important issues that we will be dealing with at European level over the next few years. The creation of a digital single market in Europe is vital to guarantee equality for users when it comes to access to audiovisual content, among other aspects.

Bearing in mind the issue of freedom of access to content, what measures is the Commission intending to propose in order to guarantee the protection of minors in the audiovisual environment as part of the forthcoming review of the Audiovisual Services Directive?
