Subject: Follow-up question - to E-011070/14 - on aid payments to Ukraine

In December 2014, a question was tabled to the Commission on aid payments to Ukraine. The Commission was asked inter alia to say for what specific purposes financial aid was and is being used on the spot. Unfortunately, the Commission's answer to that was open to interpretation to such an extent that more precise details are now being asked for again:

1. What do the measures 'to support Ukraine's political and economic stabilisation', with EUR 355 million in funding for 'budget support', specifically involve?
2. What does the 'Civil Society Support Programme', with EUR 10 million in funding, specifically involve, and what institutions is it supporting?
3. In connection with aid for Ukraine, what funding or contributions in kind are received, either directly or indirectly, by which nongovernmental organisations?
