Subject: VP/HR - Humanitarian crisis in Yemen

On 2 July, the United Nations added Yemen to the list of highest-level humanitarian emergencies.

Now, over 100 days since the conflict broke out within its borders, Yemen is indeed facing a major disaster, with almost 21 million people, 80 % of the entire population, in need of humanitarian assistance.

What form of EU mediation and assistance to the Yemeni people are being envisaged in response to this conflict?

Has any humanitarian assistance to Yemen already been provided?
