

**Question for written answer E-012071/2015/rev.1
to the Council**
Rule 130
Hugues Bayet (S&D)

Subject: Position of Luxembourg Presidency regarding tax reporting by multinationals on a country-by-country basis

The EP has adopted by a very large majority a provision requiring tax reporting by multinationals on a country-by-country basis, this being a matter falling within the public domain.

It must be remembered that revelations of aggressive tax avoidance by multinationals on a massive scale, depriving Member States of substantial revenue, have made a lasting impact on public opinion.

Can the Council give its views regarding tax reporting by multinationals on a country-by-country basis, this being an issue that will brook no delay?
