

**Question for written answer E-012174/2015
to the Commission**

Rule 130

Rosa D'Amato (EFDD) and Daniela Aiuto (EFDD)

Subject: 2015-2019 performance plan

Commission Implementing Decision (EU) 2015/347 of 2 March 2015 recommended that a number of Member States, including Italy, should review their 2015-2019 performance plans owing to inconsistencies in the targets set in the national plans or functional airspace block (FAB) plans submitted under Regulation (EC) No 549/2004.

In this connection, Italy, which is the Blue Med FAB coordinating country, has highlighted significant discrepancies between its own performance plan and the points set out by the Commission.

The Italian agency with responsibility in this area – the ENAC – was due to submit replies to the comments made by the Commission by 2 July 2015.

Can the Commission provide details of the replies received from the Italian authorities?
