Subject: VP/HR - Recent developments in the case of abducted Estonian citizen Eston Kohver

The tragic story of Eston Kohver – an Estonian citizen, security official, bearer of the Order of the Eagle Cross and father of four who was abducted from Estonia by Russian citizens – has shocked us all. It is appalling that an EU citizen can be abducted from EU soil and then sentenced in a mock trial to 15 years' imprisonment.

Has a representative of the EU mission to Russia or the Special Representative for Human Rights visited Mr Kohver? Will the High Representative call on the Member States to freeze the assets and cancel the visas of all those who were involved in the scandalous trial?
