

**Question for written answer E-012587/2015
to the Commission**

Rule 130

José Blanco López (S&D)

Subject: CEF call for proposals - breakwater at the port of Punta Langosteira

In July 2015, the Commission put forward a proposed list of projects eligible for financing under the transport call for proposals for the Connecting Europe Facility, a procedure which has been allocated EUR 11.9 billion to fund projects to improve 'core corridors' in the trans-European transport network

The project to build a breakwater at the outer port of Punta Langosteira (2014-ES-TA-0284-W) was not selected, on the grounds it was 'unsatisfactory' in view of various aspects such as risk assessment, the quality of management and oversight procedures and organisational structure.

Could the Commission provide more information on its grounds for excluding this project?

Could the Commission say whether the Government of Spain has appealed against this decision and whether it could be reconsidered?
