Subject: CEF call for proposals - berthing line in Vigo

In July 2015, the Commission put forward a proposed list of projects eligible for financing under the transport call for proposals for the Connecting Europe Facility, a procedure which has been allocated EUR 11.9 billion to fund projects to improve 'core corridors' in the trans-European transport network

The project to extend the berthing line to serve the coastal motorway (2014-ES-TA-0564-M) proposed by the port authority of Vigo was not selected on the grounds that, although the proposal was good, its relevance and impact were 'weak' and its overall contribution to the coastal motorway project was not clearly established.

Could the Commission provide more information on its grounds for excluding this project?

Could the Commission say whether the Government of Spain has appealed against this decision and whether it could be reconsidered?
