

**Question for written answer E-012680/2015  
to the Commission**

Rule 130

**Beatrix von Storch (ECR)**

Subject:     Role of the EFSM and ESM in financing the aid package for Greece

Does the Commission know whether and to what extent the European Stability Mechanism (ESM) was involved in financing the bridge loan for Greece via a private placement through the European Financial Stabilisation Mechanism (EFSM)?

What was the date (and the time, if available) of the first contact between did the EFSM and the ESM in relation to this private placement to secure the bridge loan, and at whose initiative did it take place?

How many private placements has the EFSM made to date?
