Subject: Immigration

Many news sources are circulating information concerning the infiltration of radical activists, including from ISIS, among the refugees entering EU Member States. In the light of President Juncker's statement that some 500 000 immigrants have entered the EU this year alone on account of major conflicts in Syria and Libya, the Commission is asked to answer the following:

1. Does it have an understanding of why the wave of immigrants has occurred at this specific point in time?
2. Does it have any knowledge as to whether other waves will follow, and a timeframe for them?
3. Has it evaluated the terrorist threat associated with activists entering EU Member States?
