Subject: Posting of Workers Directive

Directive 96/71/EC of the European Parliament and of the Council of 16 December 1996 concerning the posting of workers in the framework of the provision of services (the Posting of Workers Directive) is having a disastrous impact on farming in France. The income of French farmers, and particularly pig breeders, is in free fall because the use of posted workers, especially in Germany, has become so widespread.

Does the Commission intend to have the Posting of Workers Directive repealed?
