to the Commission**  
Rule 130  
**Daniela Aiuto (EFDD)**

Subject: IPPF scandal

Whereas:

- In recent months, 10 videos have been produced by the 'Center for Medical Progress'<sup>1</sup> on the International Planned Parenthood Federation (IPPF). These videos show the IPPF to be involved in the sale of organs and tissues from aborted fetuses;
- Five US states have already frozen direct funding for the IPPF as a result of the content of those videos;
- The IPPF listed in the Transparency Register of the EU Institutions;

Can the Commission state:

- whether it is aware of these events concerning the IPPF?
- whether it does not see a need to suspend all forms of funding for the IPPF until this matter has been completely cleared up?
- whether it does not think that the IPPF should be withdrawn from the Transparency Register, thereby banning it from entering the EU Institutions and attending any events organised on their premises?
