

**Question for written answer E-013446/2015**  
**to the Commission**  
Rule 130  
**Alberto Cirio (PPE)**

Subject: Scope for modifying and extending the motorway concessions referred to in the 'Sblocca Italia' legislative package

In the answer to Question E-005234/2015, the Commissioner for competition stated that Italy had not notified the competent EU Institutions, under Article 108(3) TFEU, of an amendment to motorway concessions, and that at the time of the reply contacts were still ongoing.

1. Can the Commission indicate whether, since the time of the answer by the Commissioner for competition, this notification has been received?
2. Can the Commission indicate whether it has learned of any other modifications and, if so, whether they are compatible with European law?
3. Can the Commission indicate what measures it has taken to ensure that, over and above the notifications, the Italian Government has not nonetheless renewed the motorway concessions?
