Subject: VP/HR - Funding for ISIS

ISIS apparently has access to limitless funds for its terrorist activities. Every day on the news we see ISIS terrorists driving new cars and toting masses of weapons. The cost of engaging in terrorist activities must run into hundreds of millions of euros.

What is being done to pinpoint the sources of funding for ISIS terrorism?

What is the VP/HR going to do to stop funding reaching ISIS?

What is the VP/HR going to do to punish those who are funding ISIS?
